Experience

Game Designer @ Unwoven

Oct 2025 – Now

One of the lead designers on the vertical slice of a twin-stick action roguelike. Key responsibilities:

- Definition of mechanics, systems, and game loops.
- Level design, progression, and game rules balance.
- Definition of the UI and the navigation flow for the user experience.
- Technical audio implementation and sound events creation.

Game Designer @ E-Mask

Jan 2026 – Feb 2026

Participated as a designer and animator on this stealth-puzzle game created during the 2026 Global Game Jam weekend. Key responsibilities:

- Conceptualization and game idea based on the 'Masks' theme.
- Design of recurring scenarios for level construction.
- 2D rigging of the main character.
- Creation of motion animations and their state flow.

Indie developer @ Magudai Project

Sep 2023 – Jun 2025

As a Solo developer creating a prototype for a 90s-style point-and-click adventure game. Key responsibilities:

- Developed the proof of concept in Unity and Godot, using C# as the scripting language.
- Created pixel art environments for game levels.

IT Consultant Lead @ Deloitte | NTT Data

Apr 2007 – May 2023

Career spanning over 15 years in web application development for international projects such as Specsavers, Altamira, COX Energy, Moeve, Claro, Axa, Bank of America, Randstad, Adecco, the Spanish Ministry of Transport and Sustainable Mobility, Telefónica, and Fraternidad Muprespa. Key responsibilities:

- .NET backend development.
- Management of client requirements and team tasks.
- Implementation of Agile methodologies and definition of DevOps processes used by developers.
- Definition of technical approaches for project pre-sales.
